Round 2
Rocky Mountain Raceway
Salt Lake City, Utah
June 9, 2007

Drag Strip

The drag strip is used every weekend for cars running 200 MPH. Rocky Mountain Raceway has asked us not to allow product like Armor All, grease and oil to get on the track as it must be cleaned off and is difficult. Also, piercing the course is not allowed. Do not stake down pop ups etc...

Rest Rooms

Pit Area: We will be sharing a pit with stock car racing. Please do not climb the fence to sneak into the stock car event or pits. Also, please clean up your area prior to pulling out Saturday night.

Rocky Mountain Raceway is closed Sunday. You will be locked in if you do not pull out of the front gates.
